CONCRETE ROOF TILE COLLECTIONS

Proudly Serving the Florida Market for over 60 Years

**Boral Roofing**  
Build something great™

# The Mastery of Manufacturing

We focus on the latest innovations in tile manufacturing. Our process is unique, providing pre-blended tile for the best roof aesthetic. With locations in Lake Wales, Okeechobee, and Pompano Beach we continue to maintain our commitment to our Florida customers.

Concrete Tile

# Why Tile?

## NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing standard Boral concrete roof tile to a common asphalt shingle. The result is less heat in the attic and lower energy bills.

# Material Matters.

## **BEAUTY MATTERS**

Our concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

## **DURABILITY MATTERS**

Boral engineered tile is specifically designed for new build and reroof, helping provide Floridians protection from the elements.

## **VALUE MATTERS**

Boral stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

## **SUSTAINABILITY MATTERS**

Boral roof tile is locally made and sourced in Florida since 1958.

# Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Florida. We take pride in the color quality and blending we provide.

# 3 STYLES

Boral concrete roof tile easily harmonizes with all three dominant architectural styles in Florida.
